2	SHOULDER JOINT			
3	HIP JOINT silicon			
4	KNEE JOINT			

5	HAND JOINT			
6	<p>Adult IV Training Arm Model (Silicone)  Measures 49 x 10 x 10cm Lightweight, And Has High Strength Made Of Polyvinyl Chloride (Pvc) Plastic</p>			
7	<p>Uterus and Ovary Human Anatomy Model on stand  female ovarian, fallopian tube, uterus, vagina and vestibular big gland etc.  Made of High Quality Unbreakable Fiber</p>			
8	Skeleton Human Model with Stand (4.5 Feet)			

9	Human excretory system model	 <p>A colorful anatomical model of the human excretory system. It features two kidneys (brown) connected to the ureters (yellow) which lead to the bladder (green). The model is mounted on a blue base with the text 'HUMAN EXCRETORY SYSTEM' at the top.</p>		
10	Human Heart Model In 2 Parts with Stand made with PVC And Fiber	 <p>A realistic anatomical model of the human heart, showing its major blood vessels. The model is mounted on a white rectangular base with the text 'HUMAN HEART' and some smaller text below it.</p>		
11	FETAL Circulation Anatomical Human Model	 <p>A colorful anatomical model of fetal circulation. It shows the heart, lungs, and the umbilical cord with its blood vessels. The model is mounted on a dark base with the text 'FETAL CIRCULATION' at the top.</p>		
12	Junior Scientist DNA Model Biotechnology & Pathological. HALICAL	 <p>A model of a DNA double helix structure. It consists of two intertwined strands (one yellow, one blue) connected by horizontal rungs (red and green). The model is mounted on a silver metal stand.</p>		

13	Human Digestive System 3-D Model Size- 16x30 inch SMALL, BIG			
14	Adult CPR Training Manikin for CPR Training with lights, Medium Skin			
15	Science Teaching Aid Human Skin Model PVC base Size- 16x30 inch			
16	human respiratory system Size- 16x30 inch			

17	Human small Torso 6 x 9 x 19cm			
18	Spinal Cord			
19	Human Nervous Size- 16x30 inch			
20	Human Circulatory system Size- 16x30 inch			

21	Imported Articulated Human Skeleton Model for Lab Instruments 45 cm (17 inch)S with stand			
22	Human Pelvis Skeleton In Single Part Skeleton- Made with PVC.			
23	Imported Disarticulated Human Skeleton Model Bone Set With 3 Part Skull PVC			
24	Human Larynx and Pharynx Disorders Model Comes on White Base			

25	Human lungs Model With heart Anatomical Model (7 parts)			
26	Fetal Skull Model			
27	SKull With Brain Model			

28	Human Skull Classic Anatomical Model in 2 Parts			
29	Fetal skull with palvic (birth demo model) for School Teaching Display Anatomy Toy			
30	Human Skull Classic Anatomical Model in 3 Parts			
31	Human Brain Model for Lab Silicon on stand			

32	Coloured Human Brain Model			
33	Jumbo Human Brain Model			
34	Placenta Anatomical Model			
35	Disarticulated Human Skeleton Bone Set Model Not For MBBS Students (Loose Bones Set)			

36	Human Teeth Lower Jaw Bone Structure Dental Model			
37	Finger Print Pattern Model			
38	Crocodile Model			
39	Human Liver Model			

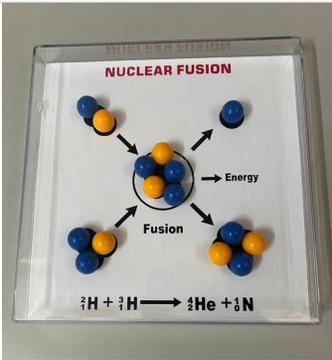

40	Human Stomach Model	 A realistic anatomical model of a human stomach, showing its characteristic J-shape and color. It is mounted on a small, light-colored rectangular base. A small white label with black text is attached to the base, listing various parts of the stomach.		
41	Superior Liver Model for medical	 A detailed anatomical model of the superior view of a human liver. The model is dark reddish-brown and shows the complex network of blood vessels and bile ducts. It is placed on a white base with a small diagrammatic card in front of it.		
42	Orbit of an Atom Model	 A classic Bohr model of an atom. It consists of a central nucleus made of red and green beads, surrounded by three concentric circular orbits. Each orbit contains several green beads representing electrons. The model is housed in a white rectangular box with the title "ORBIT OF AN ATOM" printed on the lid.		
43	Dental Care Model	 A dental model showing a set of upper and lower teeth. The teeth are white and mounted on a red, gum-like base. A green toothbrush is positioned horizontally across the front teeth, demonstrating proper brushing technique.		

44	Snake Model	 A black and white anatomical model of a snake, showing its head, body, and tail. The model is mounted on a light blue base with the word "SNAKE" printed on it.		
45	Human Liver Model on Board	 A human liver model mounted on a green board. The word "LIVER" is printed in red at the top. Below the model is a key card with the following text: "KEY CARDS: 1. GALLBLADDER & VEIN, 2. LIVER, 3. ARTERY, 4. COMMON BILEDUCT".		
46	Professional Human Ear Anatomical Model	 A professional human ear anatomical model. A hand is holding a small circular disc with a diagram of the ear's internal structure. The model itself is a detailed anatomical representation of the human ear, showing the external ear, ear canal, eardrum, and internal structures like the ossicles and cochlea.		

47 Flower Model On Wooden Board.

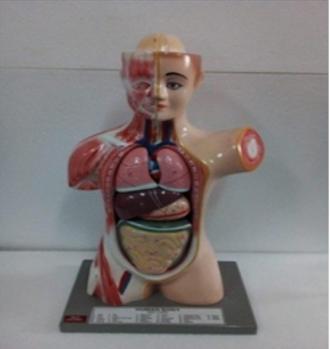

48 Nuclear fusion model

49 Sparrow Model

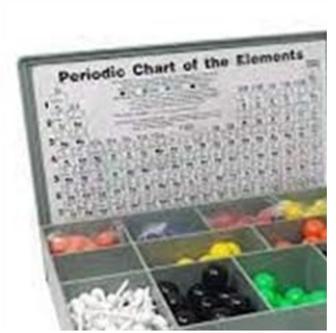

50	Anatomical Magnetic Human Torso Model in 6 Parts small size	 A photograph of a small anatomical model of the human torso, showing internal organs and muscles. The model is composed of several parts, some of which are shown detached and arranged on a white surface next to the main torso model.		
51	Human Teeth Lower Jaw Bone Structure Dental Model	 A photograph of a white anatomical model of the human lower jawbone (mandible) and teeth. The model shows the teeth and the structure of the jawbone.		
52	Anatomy Muscular Man Full Body Model 32 inch Size	 A photograph of a full-body anatomical model of a man, showing the muscular system. The model is colored in shades of red and blue, and is standing on a base. It is shown in a three-quarter view, highlighting the musculature of the torso and limbs.

CERVICAL CITATION

SCAPULA

PATELLA			
HIP BONE			
SPLEEN WITH DUODENUM			
cervical dilation	 <p>The image is a chart titled "Cervical Dilation" on a blue background. It shows ten circular diagrams representing the cervix at different stages of dilation, labeled from 0 cm to 10 cm. The diagrams show the cervix opening from a small point at 0 cm to a fully dilated state at 10 cm. On the right side of the chart, there is vertical text that reads "LACTIN PROTECTANT THROUGHOUT ACTIVE LABOR".</p>		
Advanced Blood pressure training arm model.	 <p>The image shows a medical training model of a human arm. A black blood pressure cuff is wrapped around the upper arm. A digital blood pressure monitor is connected to the cuff by a black tube. A stethoscope is also visible, lying on the surface next to the monitor. The model is used for practicing blood pressure measurement techniques.</p>		
STOMACH	 <p>The image shows two anatomical models of the stomach and duodenum. The top model is a reddish-orange, C-shaped structure representing the stomach. The bottom model is a lighter, peach-colored structure representing the duodenum. Both models are shown on a white surface with a small label in front of them.</p>
